## SUMMARY

Dedicated and ambitious Engineer graduate with a passion for innovation and problem-solving. Eager to leverage strong technical skills in Java programming, web development, and SQL alongside exceptional soft skills in leadership, communication, and teamwork to contribute effectively to a dynamic team or organization.

## EXPERIENCE

### X-Workz

Jun 2023 - Dec 2023

- Currently interning at X-Works, honing Java skills to contribute effectively to software development projects with dedication and enthusiasm.
- Developed and supported web applications using HTML, CSS and JavaScript, reducing workload burden and allowing staff to focus on higher-priority assignments.
- Gained valuable experience working within a specific industry, applying Java and SQL concepts directly into relevant work situations
- Gained hands-on experience in various software programs, increasing proficiency in Java, HTML, CSS, SQL, and JavaScript and expanding technical skill set.
- Explored new technologies and approaches such as Java and SQL to streamline processes.

## EDUCATION

### Bachelor of electronics and communication engineering May 2023

University BDT College of Engineering  
CGPA: 8.02  
Davangere , India

### Intermediate Mar 2019

Padmavati PU College  
Percentage: 86.8  
Rabakavi , India

### SSLC Mar 2017

AjitKumar Bane HighSchool  
Percentage: 93.13  
Handigund , India

## PROJECTS

### Student Management System

A Java-based Student Management System encompassing core concepts such as object-oriented programming, file handling, and user input/output. Implemented CRUD functionalities for student records management, ensuring data persistence and integrity. Utilized serialization for data storage and retrieval. Demonstrated proficiency in Java development and problem-solving skills through project execution [Git repository](#)

### Hotel E-menu

The objective of this project is to make a beautiful , attractive and user friendly e-menu for the online and as well offline customers. Which show case the variety of dishes made in the restaurant. In this project I have used HTML and CSS.

[Hotel E- menu Website](#)

### Employere Payroll Management System

Developed the Employee Payroll Management System using PL/SQL features like cursors, exception handling, and views to manage employee records, salaries, locations, and project assignments. Implemented CDB and PDB for organized data management and created an index for performance optimization.

## CERTIFICATIONS

**JAVA** [HackerRank Java certificate](#)

**HTML** [ProProf html certificates](#)

**CSS** [HackerRank css certificate](#)

**JS** [HackerRank JS certificate \(Basic\)](#)  
[HackerRank JS certificate \(Intermediate\)](#)

**SQL** [HackerRank sql certificate \(Basic\)](#)  
[HackerRank sql certificate \(Intermediate\)](#)

## SKILLS

### • JAVA:

- List
- HashMap
- Loops
- Functions
- Classes
- Exception Handling
- Abstraction
- Polymorphism
- Encapsulation

### • HTML , CSS & JS:

- Responsive Design
- User Experience
- Front-end development

### • SQL

- Data Manipulation
- Data searching
- Data correction

### • Soft Skills

- Quick Learner
- Communication
- Problem Solving
- Team Work
- Leadership
